#### Feifei

大家好，欢迎收听《地道英语》。我是冯菲菲，我的搭档是 Harry。

#### Harry

Hello there! And the expression we are going to look at in this programme is 'mind-blowing', or, 'to blow your mind'.

#### Feifei

我们在这期节目来学习如何使用 mind-blowing 或 to blow your mind 这个表达。So anyway, Harry, I've heard you really like travelling.

#### Harry

Me? Yeah, I love to travel, to be free. Yeah, I've travelled.

#### Feifei

快给我们说说，你都去过哪些国家？

#### Harry

All over. Europe, South East Asia, North Africa, Central America.

#### Feifei

你去过的地方还真多！Europe 欧洲，South East Asia 东南亚，North Africa 北非，Central America 中美洲。最难忘的是哪儿？So which was the best trip?

#### Harry

Hard to say, they were all great in their own way, but I think my trip to Cambodia really stands out.

#### Feifei

柬埔寨？为什么呢？有什么特殊原因吗？

#### Harry

Well, it's got scenery, beaches, nice food and all that stuff, but the temples at Angkor Wat – well, they just blew my mind.

**Feifei**

你去了柬埔寨的吴哥窟，你说吴哥窟 **blew your mind**?

**Harry**

Yeah, it's an amazing place. It's got incredible statues, roads, waterways all abandoned in the forest. Truly mind-blowing.

**Feifei**

如果一样东西，一件事或一个人特别出色，好的让人难以置信，甚至可能会让你停下脚步，放下手里的一切去静静的欣赏它的时候，我们就可以说这个东西 **mind-blowing** 或 **it blew our minds**。就好像有时我们说“某某事冲击了我们大脑”，这里“冲击大脑”表达的意思是正面的、褒义的。So what else can be mind-blowing?

**Harry**

Anything amazing. A painting, a film, a story.

**Feifei**

我们还可以用 **mind-blowing** 来形容 nature 大自然、the ocean 海洋、the planets 星球等等。

**Harry**

Yes, those things are all totally mind-blowing if you stop and think about them.

**Feifei**

我们一起来听几个例句。

**Examples**

The latest tablet computer has an incredible camera and loads of other mind-blowing features.

One of the most mind-blowing things about the universe is the distance between the planets.

The battle scenes in the film were amazing – they just blew my mind.

**Harry**

So, to finish off, I thought I'd give you a mind-blowing fact about space and the universe. Something that will really blow your mind.

**Feifei**

一个冲击大脑的常识 - let's hear it.

**Harry**

Did you know that every hour, the universe expands by a billion miles in all directions?

**Feifei**

宇宙以每小时 10 亿英里的速度在不断向外扩张! That is mind-blowing!

**Harry**

I know - just mind-blowing.

**Feifei**

那我也给你来一个关于蟑螂的“冲击大脑的”常识。

**Harry**

Cockroaches? Yuck! What is it?

**Feifei**

Cockroaches can live for several weeks without their head.

**Harry**

They can live without their heads?! Well, that's just blown my mind. Join us again for more mind-blowing English on Authentic Real English.

**Both**

Bye!
